Team Planning Worksheet #3: Facilitating Transfer to the Classroom

Directions: Review Team Planning Worksheet #2 and then discuss the following questions as a team, noting your responses below.

1.	Consider whether teachers will see the relevance of their PD learning experiences to their teaching. What can you do to highlight the connections between the mathematics/science content they are exploring in the PD and how that content appears in their curriculum?
2.	What can you do to help ensure that teachers will transfer what they are learning in the PD to their instruction?
